## at the center of your home.

Meet our Central table. We present it to you proudly, with a round and an elyps table top. It's ready to become the centerpiece of your home. The pivotal table leg gives you maximum freedom of movement. In addition, the elegant pillar reinforces the organic overall picture.

The Caravaggio table top will charm everyone. It suits any interior style, like a true chameleon. The pleasant sitting feeling is due to the eggshell shape of the Morisot chairs. They combine soft shapes with a firm backrest and handy armrests, topped off with velvet and smooth fabric. Also new: the Central elyps table. Lots of table space, carefully mounted on a compact, yet steady, trestle. Practical and stylish, finished with the ceramic table top: charisma grey.

## in and out.

Experience indoors comfort in the garden or vice versa. This setting is perfectly suited for both environments, combining style and weatherproof materials. Even the smooth canvas cushions endure the Belgian climate. Why skimp on comfort when you can just take it with you, across the threshold of your building? We don't just bring the comfort outdoors, we also bring strong looks and sharp design. Partly thanks to the calacatta table top.

Mathias De Ferm's Marguerite chairs are available with and without armrest. For those who like some additional support and for those who prefer maximal freedom. Which type of sitter are you? Compare both options and find out for yourself.

The XL dining table is extendable. From relatively small and cosy to impressive and extra functional.
